Parent Training

Have a look at our **free** training courses suitable for parents. If you would like to book a place please use the details overleaf to confirm your place.

ADHD

Andrea Bilbow, Director of ADDISS, presents an overview of ADHD, its symptoms, treatment and the way it impacts on the social, emotional and educational development of the child. The course will also explore various management techniques and look at identifying behavioural triggers. The course is interactive, using a variety of media techniques including videos and slides.

|------------------------|-----------------|-------------|
| Monday 16 July 2007 | 6.30pm - 9.30pm | Wesley Hall |
| Tuesday 17 July 2007 | 10am - 1pm | Wesley Hall |
| Monday 15 October 2007 | 6.30pm - 9.30pm | Wesley Hall |

Autism: Challenging Behaviour

John Mortlock Director of Care Training explores the challenging behaviour in children and young people with autism and what drives it. He focuses on issues of emotional imbalance, self control and social inhibition. Participants will gain an insight into behavioural communication and why children and young people come to rely on that and the easy ways in which to assess the behaviour to decide if it is automatic or considered, and internally or externally driven.

|----------------------------|------------|--------------|
| Tuesday 24 April 2007 | 10am - 4pm | Wesley Hall |
| Saturday 15 September 2007 | 10am - 4pm | Church House |

Autism: Effective Communication

John Mortlock covers the 'theory of mind' and looks at the impaired social imaginative understanding and impaired social communication skills of the child. The trainer looks at non-verbal communication and inflexibility of thought and difficulty in generalising.

|-----------------------|------------|--------------|
| Thursday 19 July 2007 | 10am - 4pm | Church House |
|-----------------------|------------|--------------|

Autism: Diet

Diane Dann of Care Training presents the often complex research into dietary issues in a way that is easy to understand. The course offers practical ways in finding a sensible and clear path through what many still see as a bewildering and "alternative" approach to the care and management of people with autistic spectrum condition.

| | | |
|--------------------|------------|------------|
| Monday 4 June 2007 | 10am - 4pm | Venue: TBC |
|--------------------|------------|------------|

Autism: Sexuality & Relationships

John Mortlock will provide participants with strategies for motivating young people to change their behaviours and learn self control. The trainer will explore what is known about the sexuality of people with autism and the profound effect their condition has on their own social skills.
